

# On-line Insect Information

1. **BugGuide:** very good photo-based site for insect information and I.D.  
<http://bugguide.net/node/view/15740>

2. **The Amazing World of Insects:** one of the best sites for general insect information  
<http://www.earthlife.net/insects/six.html>

3. **University of Florida's 'Featured Creatures':**  
<http://creatures.ifas.ufl.edu/>

Hundred and hundreds of pages of information on common or important insects. If you know what insect you have, this is the place to go. It also has a link to the university's 'Distance Diagnostic & Identification Site'

4. **West Virginia University Extension Service:** list of on-line insect I.D. sites  
<http://www.wvu.edu/~agexten/ipm/identify/insectid.htm>

5. **What's That Bug?:** an arty approach to insect identification  
<http://whatsthatbug.com/>

6. **Einstein's Emporium:** Insect identifier  
[http://www.einsteinemporium.com/life/animal-info/insects/insect\\_identification.htm](http://www.einsteinemporium.com/life/animal-info/insects/insect_identification.htm)

7. **Entomo-L Mailing List**  
<http://www.ent.iastate.edu/maillinglist/entomo-l/>

For those that want to delve deeper into the world of insects, this is an on-line discussion group where you will find an expert on almost anything entomological.
